Iowa's Prohibition.

Des Moines, 29.—Governor Sherman, today, issued a proclamation declaring the result of the election on the adoption of the prohibition amendment, to be 105,436 votes for and 125,677 against of 29,759. He advises all persons to take notice and govern themselves accordingly.

THAT MEDICAL COLLEGE.

A Bishop Endorses the Institution.

MORGAN CITY, UTAH, July 28th, 1882.

Editors Herald:

In answer to your query of yesterday, viz: "What is it?" in regard to the institution (well known in these parts) "The Medical College of Utah," I must truly say I am surprised at the ignorance manifested on your part in relation to the existence of this institution. If you really were in ignorance about the matter, why did you not apply to the president, secretary, or any one of the trustees, who by the way are all bona fide residents, and honorable men in our community, or the matriculants, for information, which would have been given with pleasure? You can rest perfectly at ease. This institution is gotten up for the purpose of educating our people in the profession, thereby preventing so much cutting and quacking as has heretofore existed in our country. Dr. F. S. Kohler, the dean, is an old army surgeon and graduate from one of the best schools in the United States; came to this country several years ago well recommended, and being a quiet, unassuming gentleman, has built up a reputation in our community which will stand. The college is properly organized, and no diplomas will be issued to persons unless thoroughly competent to practice medicine in all its branches, said examination to take place publicly, and before the officers and faculty of the college. As to the genuineness of the institution I can testify as a student to its beneficial effects. Hoping this explanation will suffice, and requesting further acquaintance with our school, I am respectfully, W. B. PARKINSON, Bp. North Morgan Ward.

At Cost.

We will sell for a limited number of days, the following lines of goods at NEW YORK COST. Our entire stock of Hosiery, including Summer Gloves, Silk Mitts and Gauze Underwear; this stock was never in so good a condition. Our whole stock of CORSETS; we never had so good an assortment. And our stock of Ladies' and Misses' MUSLIN UNDERWEAR, which is always the best in the city. CORN BROS.

LATEST TELEGRAMS.

XLVII CONGRESS.

REGULAR SESSION.

SENATE.

Washington, 29.—The Senate, 25 to 17, took up the House bill to regulate the carriage of passengers by sea.

Deuster's immigration bill passed. The naval appropriation bill was then taken up, pending the clause being that regarding double-turreted monitors.

An amendment by Beck was adopted, reducing from a million to \$400,000 the appropriation for the completion of the Miantonoma, in launching the other four monitors, prohibiting the completion of those four vessels without further orders of Congress, and directing the naval advisory board to report as to the advisability of their competition; vote, yeas 33, nays 19.

Miller, of California, moved to strike out the clause abolishing the grade of commodore; agreed to.

On motion of Butler an amendment was adopted striking out the clause providing for the condemnation and sale of such stores and supplies belonging to the several bureaus of the navy as shall be unseizable, and inserting a clause directing the secretary of the navy to make a report of such stores and supplies to Congress.

After coming to an arrangement that the vote should be taken upon the bill at 3 o'clock on Monday, the Senate adjourned.

Big Mining Story.

New York, 29.—A dispatch from Nul, New Mexico, says great excitement is caused in this vicinity by the discovery of new deposits of extraordinarily rich silver. In Lake Valley, ten miles from here, in the Black Range, in one shaft of the Sierra Mine, a vein of chloride and horn silver forty feet thick has been disclosed this week. The inflated prospectors' party is so large that the hostile Apaches who committed numerous outrages hereabouts last year have fled from their camps and gone over the border. The Atchison, Topeka and Santa Fe Railway has laid out a branch road from here to Lake Valley, and the rush to the new mining district increases daily.

A New Play.

Chicago, 29.—Samuel Octaville's sensational melo-drama, "Taken From Life," by Henry Pettit, was produced to night for the first time in America, in McVicker's Theatre, and met with great success, the house being crowded to the doors, and the enthusiasm very unusual. It will be produced in all the principal cities of the country in rapid succession.

The River and Harbor Bill.

Washington, 29.—There was a special meeting of the cabinet to-day, to consider the river and harbor bill. All members were present except Secretary Chandler. The bill was discussed and final action decided upon. The greatest secrecy was maintained as to the conclusion. It was the understanding between the President and members of his cabinet that nothing whatever should be divulged as to the result of to-day's deliberations. One fact, however, is known in this connection, that the President will send a communication to the House of Representatives on the subject on Monday next.

The opinion generally expressed by senators and members is that the bill will be vetoed for the reasons mentioned in the dispatches last night, but those most interested in the bill, including the chairman of the commerce committee of the two houses, still insist that it will be signed, but that the President will reserve to himself the right to indicate what portions of the vast sum appropriated shall be expended and where. Leading democrats express doubts as to the veto of the bill. They say the President has not the hard-bod or political shrewdness to send in a veto on this bill. Late this evening a statement has been put in circulation by a gentleman close to a member of the cabinet that at the meeting to-day it was decided to veto the bill. In anticipation of a veto message on Monday leading republicans are urging a caucus to be held on Tuesday evening at which it is intended to consider three propositions, one of which is to pass a bill appropriating a lump sum for public improvements to be placed at the discretion of the secretary of war; another to scale down the present bill 50 per cent., and a third to do nothing in the way of presenting a bill leaving the matter to go over to the next session.

Mexican Matters.

Tucson, A. T., 29.—The Star's special advice from Guaymas, Sonora, says: From courier just arrived from the district of Sahagun it is reported that at the Cucachas the Apaches have killed twenty citizens, and are devastating and massacring the inhabitants. Gen. Ross has left Hermosillo with a large force of regulars towards Elvas, where it is said a band of 150 Apaches are preparing to make a raid on Hermosillo, to liberate their squaws captured by Col. Garcia. The people of Sonora are rejoiced to know that Gen. Crook is to assume command of military affairs in Arizona, and feel that it means the subjugation of the Apaches.

A convict soldier lately impressed into the service was shot here on the 2nd for desertion. The Minna Prieta Mine has shut down, throwing 200 men out of employment. The cause is litigation.

The Sundry Civil Bill.

Washington, 29.—The sundry civil appropriation bill was reported to the Senate by Allison, to-day. It aggregates \$25,764,000, an increase over the House bill of \$1,788,000. Among the items added by the Senate committee are the following: Payment to the Cherokee nation of Indian, \$300,000; to purchase additional beef for Indians, \$200,000; for the international monetary conference, \$22,000; life saving service, \$45,000; to remove the bodies of Lieutenant Commander DeLong and companions from Siberia to the United States, \$25,000.

High Treason.

Lemberg, 29.—The trial of Rathemans, lately arrested for high treason in being connected with the Russophile agitation in Galicia, has been concluded. The jury found Naumovitch, clergyman; P. Loeschansky, an editor; Sypudar, cathedral choirleader, and Haluchki, a shoemaker, guilty of disturbing the tranquility, and they were sentenced to terms of imprisonment from eight to three months. The other prisoners were acquitted.

A Little Sensation.

Chicago, 29.—Through the stupid blunder or wilful neglect of a man not used to handling matters of news, a rumor was set afloat this morning that Omaha was burning up. The only tangible foundation for the report was a temporary obstruction of the telegraph by the burning of a switch board in the Omaha telegraph office. The story was so widely circulated as to make this explanation proper.

Another of 'em.

Franklin, Pa., 29.—John G. Craft, cashier of the Exchange Bank, is a defaulter to a large amount, said to be from \$50,000 to \$100,000. Craft lost heavily in the oil market and used the bank funds to cover his losses. Stockholders are ready to meet all the demands, and the business will continue. No run is likely. Craft is a devotee in the Presbyterian Church, and had the utmost confidence of the public.

Honor to Marsh.

Rome, 29.—The Institute of Forestry at Valombrosa paid a touching tribute to the late American minister. They received his body into the hall of their institute for embalming, and kept a guard of honor over it day and night. The entire institute accompanied the body down the mountain to Pontassieve.

A Fire.

Dallas, 29.—A fire at Hillsboro, late last night, destroyed sixteen places of business including the Monitor newspaper office. The conflagration was in the business part of the city. The loss is estimated at from \$50,000 to \$75,000; partially insured.

Senator Hill.

Atlanta, Ga., 29.—Senator Hill is worse. He is now wandering to-day; he sleeping quietly now, however.

Drowned.

St. John, N. B., 29.—Maggie Chestnut and Mrs. Jno. B. Abbott, bathing in the river, were drowned.

ABOUT EGYPT.

Constantinople, 29.—The military commission is of the opinion that the expedition to Egypt should consist of an advance guard and three divisions, with an effective force of 12,000 men each. The Porte denies receiving any telegram announcing the submission of Arabi Pasha.

Fifteen thousand troops are ordered to proceed to Egypt next week. Alexandria, 29, 10.30 p.m.—The explosions heard here throughout the day were caused by the British, who destroyed the cannon and powder magazines in the fort. Two armed parties started to fight from the Alexandria passenger station and Gabari goods depot, to repair the railway cut by the rebels on the Alexandria side of Mahalk Junction. Cherif Pasha has arrived here.

Bo-tou, 29.—The Herald's London correspondent cables as follows: A member of the government assures me that the reports of Arabi's intention to offer terms of surrender are entirely unfounded. Very little confidence can be placed in correspondence from Alexandria. All important probabilities are carefully hidden from them. An examining party approached the forts at Boukir this morning. The Egyptians made ready to fire and the English retired abruptly. Government has little information of the progress of Arabi's affairs, and is not sanguine that he will surrender. The only terms will be banishment of himself and officers, the disbandment of troops and the punishment of all suspected of complicity in the alleged massacre. Arabi sent a delegation yesterday to meet the British with a flag of truce. All were haughty and declined to talk about surrender on any terms. They were most insulting to the English officers. They said they would resist to the bitter end; that Arabi had the whole country with him. The deputies retired sneering at the English professions and threats. There seems no foundation for the reports that Arabi acts in hostility to the interests of Europeans.

Arabi is obviously playing, waiting for game. The report that he took the customs money at Alexandria is now proved to be a lie. A telegram from him to a private party here bitterly complains of the prejudiced reports. Arabi has means of knowing the English movements. Even officers surround the Khedive communicate with Arabi. He also gets important information from Constantinople. Arabi now signs himself commander of the national army.

The "Jeannette" Investigation.

Washington, 29.—Representative Washburn, of Minnesota, who offered a resolution in the House a day or two ago to authorize the secretary of the navy to convene a court of enquiry to examine into the loss of the Arctic exploring steamer Jeannette, said to-day that he expected to have the court of enquiry ordered before the close of the present session. The members of the naval committee to which the resolution was referred were, he said, all in favor of reporting the resolution at once. Mr. Washburn was asked to explain why he had offered this resolution. He said he had been requested to bring the matter to the attention of Congress by Dr. Collins, of Minneapolis, one of his constituents, and a brother of Jerome J. Collins, the New York Herald correspondent with the ill-fated Jeannette party. Mr. Collins asked that a congressional committee be appointed, but this Mr. Washburn deemed impracticable, and after a consultation with the secretary of the navy, who informed him that other persons had been urging an investigation, it was agreed upon to call for the convening of a court of inquiry instead of a congressional committee. Mr. Washburn thought that as the Jeannette was not an United States vessel, the fact that her officers were American naval officers would be sufficient ground on which to demand a government investigation. The inquiry, he thought, would be directed principally to the character and condition of the vessel before her departure for the Arctic seas, and the conduct of the surviving officers and men after leaving the vessel. He would not give any information as to the motive of the charges on which he had asked the resolution.

Yellow Fever.

Dallas, Tex., 29.—There is much excitement throughout the state about yellow fever in Matamoros, and an unconfirmed report it exists in Brownsville. The disease is spreading in Mexico. The following was issued this morning:

Hon. Thomas Carson:

If yellow fever is in Matamoros, declare quarantine at once. Place Dr. Cobbs in charge and give him a guard. State troops will picket all the rivers. In case of an epidemic keep me well informed. By order of the governor. R. M. Swearington, health officer.
